

Namaste!

Welcome to IEEE WCCI 2028 in New Delhi, India.

For the first time, the world's premier gathering in Computational Intelligence comes to India, bringing together the global research community to exchange ideas, forge collaborations, and shape the intelligent technologies of tomorrow.

Hosted at the world-class Yashobhoomi, India International Expo and Convention Centre (IICC), IEEE WCCI 2028 will combine cutting-edge science with the warmth, heritage, and diversity of India, creating an experience that extends far beyond the conference halls.

Set in a nation where millennia of heritage meet one of the world's fastest-growing innovation ecosystems, IEEE WCCI 2028 is designed to be more than a congress. Through AI-enhanced conference experiences, inclusive participation initiatives, cultural-technology showcases, wellness programs, and vibrant community engagement, attendees will experience the unique convergence of intelligence, innovation, and India.

Join us as we celebrate innovation, foster global connections, and explore new possibilities at the intersection of intelligence, technology, and humanity.

We look forward to welcoming you to New Delhi for an inspiring and memorable congress experience.
